

Brush-up: Certified Kamstrup Service Partner

Description

Are you Service Partner at Kamstrup? Then this course is relevant for you. At this course, you will get a walk through and a brush-up on the relevant meters. The course updates you on the product and makes it possible for you to troubleshoot, repair and calibrate Kamstrup meters, according to the newest standard. We are working with practical exercises, for you to be able to try things out and be able to remember the information better. There will be time for your questions at the course.

Course content

- Relevant meters
- Theoretical insight in the meters
- Practical introduction
- Recommendations
