

# Certified Kamstrup Service Partner

## Description

Do you want to become Kamstrup Service Partner? Then, this course is for you. The course focuses on introduction and use of the various Kamstrup meters. There will be theoretical and practical exercises regarding the meters and the software. The course targets test and repair laboratories which already are, or working on being appointed Authorized Service Centres (ASC) or Local Service Centres (LSC) by Kamstrup A/S. We make sure you have the knowledge and qualifications to support your customers when selling and troubleshooting Kamstrup products.

## Course content

- Relevant meters
- Theoretical insight in the meters
- Practical introduction
- Recommendations
