

# Certified Kamstrup Software Partner

## Description

Do you want to become Kamstrup Software Partner? This course will enable that. You will be trained in both technical and practical aspects of REAdy Drive by I+II and REAdy Fixed Network I+II. Through knowledge about our solution and in-depth understanding of our products and solutions, the course will qualify you to be a Kamstrup Software Partner. Our purpose is to make sure that supporting your customers will be easy for you. Therefore, a part of the training will concern the handling of 1st line support, and the training of your customers in an effective way.
