

# READy Drive-by II: Reading in practice

## Description

Do you want to be a superuser of READy Drive-by? Then, this advanced course is for you. This course is sequel to READy Drive-by I. We will go deeper into the READy solution, you will get a thorough introduction to all the components in the system. This gives you an important knowledge on the solution and enables you to get the system up and running and perform. The course consists of a mixture of blackboard teaching and practical exercises.

This course is a sequel to the course *READy Drive-by I: Getting started*.
