

Extended Onboarding Heat Intelligence

With Extended Onboarding Heat Intelligence, you get the ideal support to get you off to a good start using the Heat Intelligence platform.

We will do regular follow-ups with you through a 3-month period to give you the best possible conditions to quickly achieve success with Heat Intelligence.

What is in it for you?

- **Follow-up to ensure success**
During the follow-up period, we will do regular follow-ups with you to check up on your experience and success rate with the Heat Intelligence platform. And you can, of course, also reach out to us if you have any questions or issues.
- **A good head start**
With the regular follow-ups, we make sure you get familiar with using the tools and have the right foundation to start acting on the data.
- **Optimise your efforts**
We assist you in how to spot potential for improvement and areas of interest to help you save time and optimise your efforts.

Who is this for?

Extended Onboarding Heat Intelligence is for you who want an extra support during your first months of using Heat Intelligence to ensure you are dressed for spotting areas of interests and improving your distribution network. We recommend this service together with the Up & Running Service where we set up everything and give you an introduction to the platform to ensure you get extra support and guidance to get off to a flying start.

Heat

Cooling

Water

Electricity

What do you get?

Follow-up and support

We set up regular follow-up meetings between you and a dedicated product specialist. We will check in with you, ensure that things are running smoothly and help you optimise your efforts. This includes helping you look for potential areas of interest and identify potential for improvements.

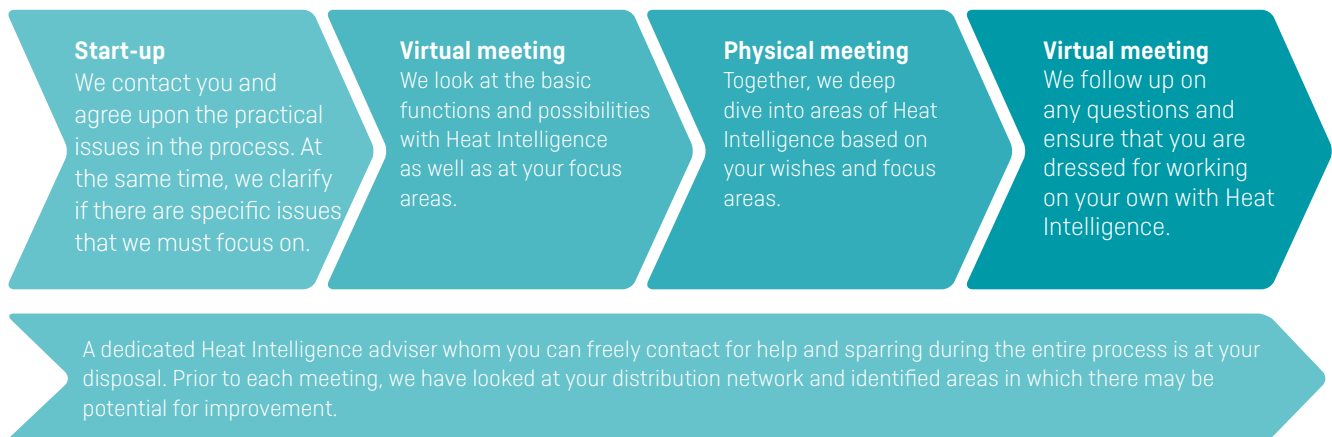

You can also reach us through the Kamstrup service desk via web, email and phone to get help with any issues or questions you may have related to the tool.

The Extended Onboarding Heat Intelligence service is provided throughout a three-month period. Depending on your needs, the period can be extended upon request.

Ask your Kamstrup contact for more information.

How it works

A typical Extended Onboarding period is as illustrated below.

Looking for more?

With our add-on services, you can customise your Heat Intelligence solution to give you just what you need.

These services include:

- **Up & Running** with Heat Intelligence to ensure you are off to a good start.
- **Book a consultant** to go through your distribution network with you.
- ...and much more

Ask your Kamstrup contact for details.
