## **Pulse Adapter (type 6699051)**

**For flowIQ® 2200 & 3200**

- Effortless mounting: simple click-on solution with no additional tools required
- Instant activation with the push of a button
- Long-lasting battery up to 16 years without impacting meter battery
- Durable design with IP65 construction

## Introduction

---

The Kamstrup pulse adapter is designed for effortless mounting on the Kamstrup flowIQ® 2200 or flowIQ® 3200 meters (see table on next page for variants). Simply click it onto the existing meter, and you're set. With the press of a button, the meter displays "Pulse on," signaling that the pulse adapter is now transmitting a pulse for every 10 liters of water passing through.

Crafted with an IP65 construction, the adapter features its own internal battery, offering a lifespan of up to 16 years. This design ensures it does not impact the meter's battery life, providing a reliable and long-lasting solution.

## Compatibility

Please see the table below for compatibility for different meter varieties (modules).

Do not mount pulse adapter on non-supported meter variants.

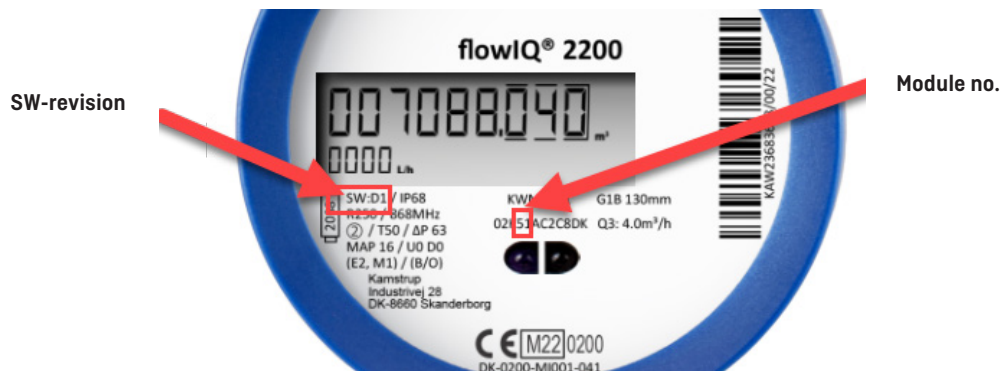

Available for:

Meter	Variant	Module	SW revision	Pulse output
flowIQ® 2200/3200	KWM2231/KWM3231	51, 52, 73	All	10 L/pulse
flowIQ® 2200/3200	KWM2230/3230	60, 61, 62, 63, 64, 82	H1XX<	10 L/pulse

Not available for:

Meter	Variant	Module	SW revision	Pulse output
flowIQ® 2200/3200	KWM2230/3230	31, 32, 57, 71, 72, 81	None	N/A

In order to check the SW-revision and module-nr of your meter, check the meter front label as shown below

## Technical data

### Supply

1xA-cell

### Output type

MOSFET SSR

### Wire length

1.5 m

### Open Resistance

Min. 1 MΩ

Pulse length

### External voltage

1-30 V DC bipolar

### Current

Max 50 mA

### Wire extension

Max 25 m

### Pulse output

1 pulse/10 L

100ms

Pulse adapter
